# Vrushabh Nandanwar

## Front End Angular Developer

Experience Angular developer with 3 years of experience in developing single-page applications And website. I design, develop, and implement beautiful and user-friendly web applications using HTML, CSS, JavaScript, and TypeScript. I'm well-versed in Agile methodologies and work well in teams.

## Experience

### FROM JULY-11, 2022 TO PRESENT

THINKERSTEPS TECHNOLOGY'S PVT. LTD. | Omkar Nagar, Nagpur-440009

#### Front End Angular Developer

I have experience developing and maintaining Angular applications, including single-page applications using Angular and Rest Web Services. I've created controllers and models using Angular and worked as a front-end UI/Web developer in a corporate environment.

#### Projects

- CIELO (Comunidades Indígenas en liderazgo)**

Developed and maintained multiple pages/modules using Angular framework, adhering to best practices and standards. Implemented CRUD operations. Identified and resolved bugs and performance issues, optimizing the application for speed and efficiency.

- JMS (Jewellery Management System)**

Developed JMS with intuitive UI for efficient product and sales management. Implemented features for product cataloging, invoicing, and sales tracking, streamlining jewellery business operations.

- SOURCEMATRIX**

Contributed to the Aegis Project, an inventory management system focusing on import and export inventory. Collaborated on development tasks throughout the project lifecycle

- RACE DU**

I used the Angular framework to develop a robust web app, with optimized functionality and user experience, capable of performing REST APIs with ease.

### FROM MAY 01, 2021 TO JULY 09, 2022

SASIN ETEACH PVT. LTD. | Krida Square, Nagpur-440009

#### Junior Front End Developer

Determining the structure and design of web pages. Utilized HTML, CSS, and JavaScript to create responsive landing pages for both company and client. Provide functional and technical support, troubleshooting, and diagnosing software problems. Configuration & managing the application.

#### Projects

Create a website for a company using HTML, CSS, And Java Script.
